Put the Brakes on Distracted Driving

In 2014, there were 100,825 traffic crashes in Texas that involved distracted driving (distraction, driver inattention or cell-phone use). These crashes resulted in 3,214 serious injuries and 468 deaths.

ONE TEXT OR CALL COULD
WRECK
IT ALL

All in-vehicle distractions are unsafe and can cause crashes or fatalities.

Texans behind the wheel:
Driving distracted

10% of all drivers are using their cell phone right now

90,378 crashes in 2012 involved driver distraction (including cell phone use)

NEARLY 1 in 4 crashes involves driver distraction

Texting takes a driver's eyes 4.6 seconds off the road for like driving a football field with eyes closed
