## Designated Driver is a Friend for Life

### Sobering Statistics

- About every 20 minutes someone is hurt or killed in a crash involving alcohol.
- In 2016, 987 people were killed in crashes where a driver was under the influence of alcohol – 26% of the total number of people killed in crashes.
- More DUI-alcohol crashes were reported between 2 a.m. and 2:59 a.m. than any other hour of the day.

– Texas Dept. of Transportation

### What choices do you have?

- Plan ahead for a sober ride home.
- At a party, ask if you can stay overnight.

### What changes when you are impaired?

- The first ability affected is judgment. For some, it only takes one drink to impact decision-making.
- Reaction time, depth perception and coordination can be compromised.
